Comparison between Human Writing and AI Writing

~OUTPUT~

Feature	Human-Written Paragraph	AI-Generated Paragraph
● Style	Simple, personal, and straightforward	More polished and well-structured
● Tone	Informal and relatable	Formal and academic
● Clarity	Clear but basic explanations	Clear with more detailed phrasing
● Content	Focuses on everyday usefulness	Highlights broader concepts and digital skills
Limitations	May lack depth or advanced vocabulary	May sound generic or overly formal

Conclusion:

Human writing reflects personal thoughts and emotions, while AI writing is faster and more structured but may lack originality and emotional depth.

Conclusion:

Human writing reflects personal thoughts and emotions, while AI writing is faster and more structured but may lack originality and emotional depth.
